Author Index—Volume 12, 1988

The index lists in alphabetical order the names of authors of all articles and invited commentaries. Full citation is given under first author only; reference is made from joint authors. Names that begin with a prefix are entered under the prefix.

A

Abe, O.: see **Takami et al.**, 572

Aboukhater, R.: see **Courbier and Aboukhater**, 742

Agnello, R.: see **Levitt et al.**, 593

Ågren, H.: see **Joborn et al.**, 476

Subject Index—Volume 12, 1988

A

Aneurysm
progress in the treatment of anastomotic aneurysms (Courbier and Aboukhater), 742

Angioplasty
percutaneous transluminal angioplasty: the surgeon's role (Menges et al.), 788

Antibiotics
cefotaxime i.v. versus oral neomycin-erythromycin for prophylaxis of infections after colorectal operations (Raahave et al.), 369
penetration of cefazolin, ceftriaxone, cefoperazone, and ceftazidime into human gallbladder tissue and bile (Berger et al.), 641

Artery
advances in the development of grafts for bypass of small-caliber arteries (Sauvage), 732
perigraft reaction: incompatibility of synthetic vascular grafts? new aspects on clinical manifestation, pathogenesis, and therapy (Paes et al.), 750
aortic-iliac occlusive disease (Charlesworth), 763
factors contributing to success and failure of femorotibial bypass grafts (Courtney et al.), 768
renal and intestinal artery occlusive disease (van Dongen), 777
extraanatomical bypass procedures (Blaisdell), 798
progress in the treatment of thoracic aortic aneurysms (Crawford), 805
pitfalls and progress in the management of abdominal aortic aneurysms (Trede et al.), 810

B

Bile Ducts
symposium: progress in the treatment of bile duct cancer: multidisciplinary approach (Nakayama), 1
surgical anatomy of the hepatic hilum with special reference to the caudate lobe (Mizumoto and Suzuki), 2
cancer of the extrahepatic bile duct: a clinicopathologic study of immunohistochemistry for CEA, CA19-9, and p21 (Yamaguchi et al.), 11
the role of ultrasound, percutaneous transhepatic cholangiography, computed tomographic scanning, and magnetic resonance imaging in the preoperative assessment of bile duct cancer (Okuda et al.), 18
the role of endoscopic retrograde cholangiopancreatography in preoperative assessment of bile duct cancer (Tanaka et al.), 27
the role of preoperative biliary decompression in the treatment of bile duct cancer (Yanagisawa et al.), 33
resection or palliation: priority of surgery in the treatment of hilar cancer (Bismuth et al.), 39
skeletization resection and central hepatic resection in the treatment of bile duct cancer (White), 48
extended right hepatic lobectomy, left hepatic lobectomy, and skeletonization resection for proximal bile duct cancer (Pinson and Rossi), 52
radical surgery for middle and distal thirds bile duct cancer (Nakayama et al.), 60
bypass procedure for bile duct cancer (Miyazaki et al.), 64
radical resection and liver grafting as the two main components of surgical strategy in the treatment of proximal bile duct cancer (Pichlmayr et al.), 68
percutaneous transhepatic endoprosthesis in malignant obstruction of the bile duct (Yamakawa et al.), 78
endoscopic retrograde drainage for bile duct cancer (Soehendra and Grimm), 85
the role of intraoperative radiation therapy in the treatment of bile duct cancer (Iwasaki et al.), 91
internal radiation for bile duct cancer (Meyers and Jones), 99
the role of chemotherapy in the treatment of bile duct cancer (Oberfield and Rossi), 105
treatment and prognosis in bile duct cancer (Tompkins), 109
primary endoscopic papillotomy (EPT) in patients with stones in the common bile duct and the gallbladder in situ: a 5–8-year follow-up study (Rosseland and Solhaug), 111

Breast
the role of mammography in the detection of bilateral primary breast cancer (Tinnemans et al.), 382
in situ breast carcinomas: a population-based study on frequency, growth pattern, and clinical aspects (Blichert-Toft et al.), 845

C

Carcinoid
two cases of gastric carcinoids: diagnostic and therapeutic aspects (Ahlman et al.), 356

Carotid Body
carotid body tumors at high altitudes: Quito, Ecuador, 1987 (Pacheco-Ojeda et al.), 856

Complement
estimation of serum complement and its role in management of trauma (Kapur et al.), 211

D

Duodenum
primary adenocarcinoma of the duodenum: analysis of survival (Lai et al.), 695
immediate definitive surgery for perforated duodenal ulcer does not increase operative mortality: a prospective controlled trial (Hay et al.), 705

E

Endocrine Surgery
a short history of the International Association of Endocrine Surgeons (Taylor), 429

Esophagus
a comparison of flexible and rigid endoscopy in evaluating esophageal cancer patients for surgery (Cheung et al.), 117
esophageal carcinoma: patient selection for transhiatal esophagectomy. a prospective analysis of 50 consecutive cases (Barbier et al.), 263
quality of life and patterns of recurrence following transhiatal esophagectomy for cancer: results of a prospective follow-up in 50 patients (Barbier et al.), 270

F

G

Gallbladder
percutaneous transhepatic gallstone removal by nephroscopic technique in a case of cholelithogenous liver abscess (Janetschek et al.), 691

H

Hepatocellular Carcinoma
the role of surgery in the management of unusual complications of transcatheter arterial embolization for hepatocellular carcinoma (Jeng and Ching), 362

Hydatid Disease
recurrence of hydatid disease (Little et al.), 700

I

Ileostomy
complications and function of the continent ileostomy at the Cleve-

land Clinic (Fazio and Church), 148
management of conventional ileostomies (Pemberton), 203
Inflammatory Bowel Disease
symposium: surgical treatment of inflammatory bowel disease (Goligher), 139
medical management of ulcerative colitis and the indications for colectomy (Truelove), 142
complications and function of the continent ileostomy at the Cleveland Clinic (Fazio and Church), 148
total colectomy and ileorectal anastomosis for ulcerative colitis (Mann), 155
proctocolectomy and ileoanal anastomosis (Beart), 160
proctocolectomy and ileoanal anastomosis with a j-shaped or s-shaped ileal pouch (Cohen and McLeod), 164
emergency surgery for ulcerative colitis (Hawley), 169
medical management: its accomplishments in Crohn's disease and indications for surgery (Allan), 174
surgical treatment of Crohn's disease of the small bowel or ileocecum (Hultén), 180
surgical treatment of Crohn's disease affecting mainly or entirely the large bowel (Goligher), 186
surgical and metabolic management of patients with external fistulas of the small intestine associated with Crohn's disease (Hill et al.), 191
management of perianal Crohn's disease (Allan and Keighley), 198
management of conventional ileostomies (Pemberton), 203
Insulinoma
pre- and intraoperative localization of insulinomas: report of 22 observations (Gianello et al.), 389

J

K
Kasai Operation
a history of the Kasai operation: hepatic portoenterostomy for biliary atresia (Ohi), 871

L
Liver
surgical anatomy of the hepatic hilum with special reference to the caudate lobe (Mizumoto and Suzuki), 2
extended right hepatic lobectomy, left hepatic lobectomy, and skeletonization resection for proximal bile duct cancer (Pinson and Rossi), 52

M

N

O

P
Pancreas
necrosectomy and postoperative local lavage in patients with necrotizing pancreatitis: results of a prospective clinical trial (Beger et al.), 255
pre- and intraoperative localization of insulinomas: report of 22 observations (Gianello et al.), 389
effect of pancreatitis on moxalactam excretion in pancreatic fluids of dogs and man (Rubinstein et al.), 411
changing concepts of islet cell dysplasia in neonatal and infantile hyperinsulinism (Thomas et al.), 598
a new method of reconstruction after pylorus-preserving pancreatoduodenectomy (Suzuki et al.), 645
pancreatic endocrine functions in long-term survivors after pancreatoduodenectomy: special reference to reversibility of insulin and glucagon secretion (Miyata et al.), 651
total pancreatectomy for ductal adenocarcinoma of the pancreas: an update (van Heerden et al.), 658
long-term evaluation of pylorus preservation during pancreaticoduodenectomy (Fink et al.), 663
preoperative imaging versus intraoperative localization of tumors in adult surgical patients with hyperinsulinemia: a multicenter study of 338 patients (Proye and Boissel), 685
transplantation of cryopreserved human pancreatic islets into diabetic nude mice (Ricordi et al.), 861
increased incidence of pancreatic neoplasia in pernicious anemia (Borch et al.), 866
Parathyroid
secretory disturbance in hyperplastic parathyroid nodules of uremic hyperparathyroidism: implication for parathyroid autotransplantation (Wallfelt et al.), 431
studies on in vivo and in vitro release of intact parathyroid hormone using a new two-site immunochemiluminometric assay (Aston et al.), 454
the effect of intravenous magnesium sulphate on parathyroid function in primary hyperparathyroidism (Gough et al.), 463
psychiatric morbidity in primary hyperparathyroidism (Joborn et al.), 476
improved differential diagnosis of hypercalcemia by hypocalcemic stimulation of parathyroid hormone secretion (Ljunghall et al.), 496
vitamin D deficiency and hyperparathyroidism with severe bone disease (Ingemansson et al.), 517
cervical exploration for suspected primary hyperparathyroidism in renal stone formers: a challenge to the surgeon (Farnebo et al.), 534
monoclonal antiparathyroid antibodies revealing defect expression of a calcium receptor mechanism in hyperparathyroidism (Juhlin et al.), 552
ionized calcium in monitoring effective parathyroidectomy: a preliminary report (Rosen and Pollard), 630
the challenge of the middle mediastinal parathyroid (Curley et al.), 818
prospective comparison of radionuclide, ultrasound, and computed tomography in the preoperative localization of parathyroid glands (Carmalt et al.), 830
Parenteral Nutrition
preservation of functional aerobic capacity with daily submaximal exercise during intravenous feeding in hospitalized normal man (Albert et al.), 123
Peptic Ulcer
recurrence rate after highly selective vagotomy (Busman et al.), 217
dynamic Visick grading after highly selective vagotomy (Busman et al.), 224
increased ulcer relapse rate after PCV in smokers (Graffner and Lindell), 277
Pheochromocytoma
spectrum of pheochromocytoma in the ^{131}I-MIBG era (Cheung et al.), 546
adenosine: a new antihypertensive agent during pheochromocytoma removal (Gröndal et al.), 581
multiple neuroectodermal abnormalities in pheochromocytoma patients (Jansson et al.), 710
Pituitary
the use of intercavernous sinuses phlebography in the diagnosis of ACTH-secreting microadenomas (Merola et al.), 445
Portal Hypertension
effect of oral branched chain amino acids on behavior and brain seroto-

nin metabolism in portacaval shunted rats (Bengtsson et al.), 246
splenocaval shunt for selective portal decompression (Iliopoulos et al.), 852

Q

R

S

Sarcoma
symposium: management of skeletal and soft tissue sarcomas (Lejeune), 283
surgical pathology of bone sarcomas (Huvos), 284
management of bone sarcomas at Memorial Sloan-Kettering Cancer Center (Gebhart and Lane), 299
isolation perfusion of the lower limb with platinum (Vaglini et al.), 307
microsurgical free fibular bone transfer: a technique for reconstruction of large skeletal defects following resection of high-grade malignant tumors (Schuind et al.), 310
limb salvage in sarcomas in children (van der Eijken), 318
the role of the pathologist in the management of soft tissue sarcomas (Hajdu et al.), 326
the role of hyperthermic perfusion as a first step in the treatment of soft tissue sarcoma of the extremities (Di Filippo et al.), 332
upper and lower limb disarticulation in soft tissue and bone sarcomas (Lienard and Lejeune), 340
hyperthermic isolation perfusion of the limbs with cytostatics after surgical excision of sarcomas (Lejeune et al.), 345
surgical lessons from the Intergroup Rhabdomyosarcoma Study (IRS) pertaining to extremity tumors (Lawrence et al.), 676

Stomach
carcinoma of the gastric cardia: surgical management and long-term survival (Moreaux and Msika), 229
long-term survival in Japanese patients with far advanced carcinoma of the stomach (Korenaga et al.), 236
results of gastric resection for carcinoma of the stomach: the European experience (Heberer et al.), 374
a statistical evaluation of advancement in gastric cancer surgery with special reference to the significance of lymphadenectomy for cure (Soga et al.), 398
effect of proximal gastric vagotomy on human gastric blood flow evaluated by endoscopic laser Doppler flowmetry (Lunde et al.), 406
surgical management of large paraesophageal hernia with complete intrathoracic stomach (Menguy), 415
a microbiological etiology for gastritis and peptic ulceration (Quintero et al.), 718
function of the intrathoracic stomach as esophageal replacement (Hölscher et al.), 835

T

Thromboembolism
the economics of general thromboembolic prophylaxis (Bergqvist et al.), 349

Thyroid
effects of thyroxine on cell proliferation in human multinodular goiter: a study on growth of thyroid tissue transplanted to nude mice (Smeds et al.), 241
histochemical demonstration of thyroxine, triiodothyronine, and thyroglobulin in the primary lesion of thyroid carcinoma, and its predictability for radioiodine uptake by metastatic lesions (Kodama et al.), 439
secondary thyroidectomy: a twenty-year experience (Reeve et al.), 449
duplex scan-derived thyroid blood flow in euthyroid and hyperthyroid patients (Hodgson et al.), 470
flow cytometric DNA measurements in benign and malignant Hürthle cell tumors of the thyroid (Ryan et al.), 482
benign Hürthle cell tumors of the thyroid: a diagnosis to be trusted? (Grant et al.), 488
prognostic value of nuclear DNA content in papillary and follicular thyroid cancer (Hamming et al.), 503
Hashimoto's thyroiditis revisited: the association with thyroid cancer remains obscure (McLeod et al.), 509
partial superior laryngeal nerve (SLN) lesions before and after thyroid surgery (Jansson et al.), 522
adenylate cyclase activity as a predictor of thyroid tumor aggressiveness (Siperstein et al.), 528
guanyl nucleotide regulatory proteins in neoplastic and normal human thyroid tissue (Clark et al.), 538
when is total thyroidectomy indicated as a treatment of "follicular carcinoma"? (Yamashita et al.), 559
familial occurrence of differentiated, nonmedullary thyroid carcinoma (Ozaki et al.), 565
immunohistochemical study of medullary thyroid carcinoma: relationship of clinical features to prognostic factors in 36 patients (Takami et al.), 572
the value of intraoperative scintigraphy as a routine procedure in thyroid carcinoma (Lennquist et al.), 586
the effect of subtotal thyroidectomy on Graves' ophthalmopathy (Levitt et al.), 593
evaluation of surgical results and prediction of prognosis in patients with medullary thyroid carcinoma by analysis of serum calcitonin levels (Miyauchi et al.), 610
epidermal growth factor receptor on human thyroid neoplasms (Masuda et al.), 616
deaths due to differentiated thyroid cancer: a 46-year perspective (Harness et al.), 623
modified neck dissection for patients with nonadvanced, differentiated carcinoma of the thyroid (Ozaki et al.), 825

Trauma
emergency department thoracotomy following injury: critical determinants for patient salvage (Baxter et al.), 671

U

V

Vascular
symposium: advances in vascular surgery (Trede), 723
the vascular laboratory: advances in noninvasive techniques (Bollinger et al.), 724
advances in the development of grafts for bypass of small-caliber arteries (Sauvage), 732
progress in the treatment of anastomotic aneurysms (Courbier and Aboukhater), 742
perigraft reaction: incompatibility of synthetic grafts? new aspects on clinical vascular manifestation, pathogenesis, and therapy (Paes et al.), 750
extracranial vascular disease: advances in operative indications and technique (Imparato), 756
aortic-iliac occlusive disease (Charlesworth), 763
factors contributing to success and failure of femorotibial bypass grafts (Courtney et al.), 768

renal and intestinal artery occlusive disease (van Dongen), 777
percutaneous transluminal angioplasty: the surgeon's role (Menges et al.), 788
extraanatomical bypass procedures (Blaisdell), 798
progress in the treatment of thoracic aortic aneurysms (Crawford), 805
pitfalls and progress in the management of abdominal aortic aneurysms (Trede et al.), 810

W

Wound Healing
blood flow and tissue reaction at skin wound closures (Nagamachi), 635
